Account Settings

Email Verification · https://verify550.com/documentation/account-settings/

You will have the following five tabs under Account Settings which you can use to manage your account:

- General – contains your user name, contact details and geographical location (country, city, address and zip code)
- Manage users:- allows you to invite new users
- Billing section – you can enable auto-recharge your account
- Invoice – you can see your invoices generated by the system for your account.
